 - To build good reputation in the field.

Scope of Work

- Emergent Tech Solutions provide software solutions as well as website development services. The company undertakes all technological work needed in the organizations to conduct their business. We analyze the requirements and provide assessment for software solution implementation.

Portfolio

Business Software Solutions:

- **Real Roadlines Pvt. Ltd. (RRPL):**
 - Case Study: The Company is transportation service provider for Reliance Industries Ltd and such large corporation. RRPL

delivers cargo from various warehouses to multiple destinations. The company needs to maintain accounts according to laws and also need to upload the required details to the SAP system of Reliance Industry.

- Our Solution: We developed a standalone software which allows RRPL to enter all transportation details to our software which automatically updates respective accounting entries into Tally (recognized accounting software) and generates tab separated file to upload into SAP system. This reduced men hours significantly.

- **Ascent Electrification Engineers Pvt. Ltd.**

- Case Study: Ascent is an electric solutions provider for GETCO, Reliance, Essar and other large business organizations. They have engineers at various electrical installation sites who are constantly in need of various electrical components for fitment as well as tools for the same. Company needed to track project based stock allotment and tools used.
- Our Solution: We developed an online web based requests management system which handles the requests from onsite engineers for various components and tools. Our system keeps track of stock issued, person who is issuing and requester, items used per site per project. The system also features role based authentication developed using Microsoft ASP.NET identity.

- **Quality Stone Industries**

- Case Study: This company performs stone mining operations for extraction of raw materials. These raw materials are then processed in a stone crusher and then delivered to respective clients. Company needed a

system which can keep track of royalty paid to govt., stock management, products delivered, transportation, weighing, and automatic statements delivery to customers. Company needed their entire business to be covered in software solution.

- Our Solution: We deployed a web based solution which mimics the entire business process with enhanced reports generation and automation. The system keep tracks of vehicles used at mining site, their trips, the raw materials mined, finished products from stone crushers, products delivered to various customers, transportation needed for all the operations. Our system generates real time reports according to various parameters like date, product, product etc.

- **Shiv Shakti Cargo Movers Pvt. Ltd (SSCMPL)**

- Case Study: Company is Custom House Agent (CHA). In India, a customs house agent (CHA) is licensed to act as an agent for transaction of any business relating to the entry or departure of conveyances or the import or export of goods at a customs station. CHAs maintain detailed, itemized and up-to-date accounts.
- Our Solution: Company needed a system which can generates detailed reports for stocks, truck arrival from exporters, outward to vessels and many shipping related tasks. We deployed a system which automated documents generations with minimal software data entries. Our system also manages stocks for the SSCMPL.
- URL: <http://sscmpl.com>

- **Vikrant Car Décor**

- Case Study: Vikrant car décor is one of the premium car decoration/ accessories and fitment business. They have very large range of products which are sold or fitted at on location. They needed a system which allows them to track stock, payment and customer relationship management.
- Our Solution: We deployed on location LAN based POS like system which can be accessed at the vicinity of the business location. Our system allows user to update stock in, stock out (selling). The system generates reports of sales, cash flow statement, payment mode wise reports, estimates and billing, customer relationship management.

- **Suzy Industries Ltd**

- Case Study: Suzy is iron foundry located in Rajkot. They are in the business of shell mold casting products. The company needed cost effective ERP product which can cover all the aspects from raw materials to production to distribution.
- Our Solution: After analyzing the environment and requirements we opted for open source solution ERPNext (<https://erpnext.com/>). We implemented erpnext locally, turning one of computer as Ubuntu cloud and made it available for access via Wireless LAN. We customized the software based on the needs of the company.
